Well, stop imagining... **It is Here!!!**

Hi, my name is Dr. Brian L. Seymore and I am about to reveal to you what I believe is the ULTIMATE, possible solution to your Fibromyalgia.

Why would I offer this free report and reveal all this to you... a complete stranger?

Well, I know just how crippling Fibromyalgia can be. I know how Fibromyalgia can destroy your family. Destroy your career. Destroy your life. I know how Fibromyalgia can put a strangle hold on your life... squeezing your hopes and dreams right out of you like a giant anaconda.

How do I know how YOU feel?

Well, I help Fibromyalgia patients EVERY DAY. You see, a large part of my practice is devoted specifically to Fibromyalgia. Devoted to cases other doctors have had NO success with. Devoted to cases other doctors have *given up on*. Devoted to cases other doctors have simply turned their backs on and thrown out in the trash. Devoted to cases just like yours.

I spend countless hours every week treating Fibromyalgia sufferers, just like you, and scouring the earth to find the very best and the very latest advances in Fibromyalgia.

And What I've Discovered Is Like The "Fountain Of Youth" For Fibromyalgia Sufferers!

You read that right. What I've just done is the equivalent of stumbling across the fountain of youth... or breaking into Fort Knox and making off with all the gold. And I'm gonna share it with you. All of it.

Here's what this is all about: Until very recently I was your average doctor and knew very little about Fibromyalgia. I had seen quite a few patients with Fibromyalgia over the years and honestly, had a "love/hate" relationship with these cases. I could help a few Fibromyalgia sufferers quite a bit, while most got minimal if any results at all. Most doctors I know have

just given up on Fibromyalgia completely, throwing their hands in the air telling their patients it's all in their heads. Well, I kept getting more and more Fibromyalgia sufferers asking me if there was ANYTHING I could do to help them. I soon found out that there are...

Over 30 Million Fibromyalgia Sufferers In The United States!

WOW! I began searching everywhere for a solution. Any clue. There had to be something out there that was being overlooked that could help Fibromyalgia. That could help 30 million people just like you.

Well, after a few years of searching, all I came up with were worthless drugs, diets, supplements, herbs, anti-depressants, psychiatrists, magnets... I even found someone selling some kind of “mineral enriched sea water.” And by now, we all know about that “blue glop.” Some of these treatments may help other conditions but...

They Were WORTHLESS For Fibromyalgia!

Are you overwhelmed and frustrated with your Fibromyalgia and all the so called “answers” you get from your doctors? Well, I was too.

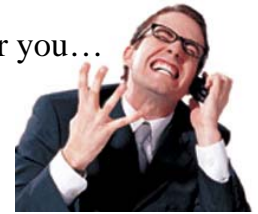

The bottom line was... I could not find anyone who was REALLY helping Fibromyalgia sufferers. Sure they did a lot of elaborate, expensive tests (Very expensive in some cases!)...They used a lot of fancy words. But when all was said and done, what could they do for you? NOTHING! Then they had the nerve to send you an outrageous bill even Donald Trump would have trouble paying!

The reason these “Doctors” were not helping these patients is because THEY did not even understand what Fibromyalgia actually is... so I'm going to tell you!

1. What ACTUALLY is Fibromyalgia? (*Just the Facts*)

Fibromyalgia Syndrome (FMS) is a very painful and debilitating condition. Fibromyalgia is defined as a widespread musculoskeletal pain and fatigue disorder. Fibromyalgia means pain in the muscles, ligaments, and tendons—the soft fibrous tissues in the body. Most patients say that they ache all over. Their muscles may feel like they were pulled or overworked. Sometimes the muscles twitch and other times they burn. More women than men are afflicted with Fibromyalgia (90% versus 10%) and it shows up in people of all ages.

I was as mad as Al Gore after that Florida “miscount,” and fortunately for you...

I’m The Kinda Guy Who Will Complain To Anyone Who’ll Listen!

That’s how I found out about an amazing system created by a *former* Fibromyalgia / Chronic Fatigue sufferer practicing in Encinitas, California. The secret to this program’s success is that it has a multiple-pronged attack on Fibromyalgia that, to my knowledge, no other doctors have even heard about, much less are doing.

We attack Fibromyalgia from every possible angle, giving you the best possible chance to feel like you did BEFORE Fibromyalgia stole your life. The reason WE can “attack” Fibromyalgia is because we know EXACTLY what CAUSES it!

2. What CAUSES Fibromyalgia?

This is the “Golden Ticket”. If you understand ONLY one thing from this report, make this it! This is where there is severely differing opinions according to the so-called “experts”. Also, this is why most doctors are ineffective in treating Fibromyalgia... *(If you don’t know what causes a condition, it’s impossible to fix it! Does this make sense? Ok, here we go, Fibromyalgia is a condition with THREE causative factors:*

1) **Psychological** (~3%): Traumatic experiences (*e.g. loss of a child or spouse...*) causes cerebral unrest and alters brain chemical activity which can cause muscle hypertonicity which may mimic or lead to Fibromyalgia. A Psychologist or Psychiatrist is best suited to treat the Psychological factor with Fibromyalgia. *(I am not a Psychologist or Psychiatrist and I do not address this factor, I refer out for this...)*

2) **Chemical** (~11%): An imbalance of nutritional intake and/or drug intake can also alter muscle tone and mimic or lead to Fibromyalgia. A Nutritionist or Functional Medicine Doctor is best suited to treat the Chemical factor with Fibromyalgia.

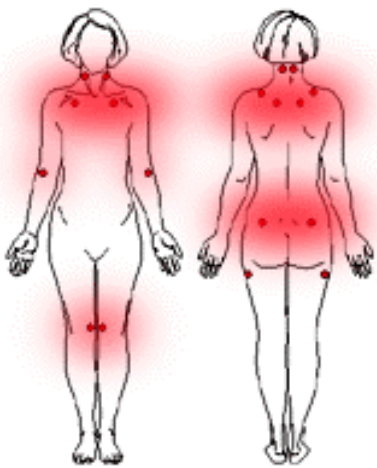

3) **Neurological** (~86%): The strong majority of Fibromyalgia cases are caused by altered neurological function. This happens with Subluxation in the spine. (Subluxation is a shift in the vertebrae). Subluxation puts pressure on the nerves. (Research shows pressure as little as the weight of a dime will decrease the nerve flow by 60%). This altered nerve pressure leads to pain and altered muscle tone, which is the cornerstone of Fibromyalgia.

Knowing this “insider” secret offers you the possible solution to your Fibromyalgia and **the power to move the world**. Almost overnight, you can start relieving aches, pains and Chronic Fatigue. Your life can go from sheer hell, to breathtaking enjoyment in a matter of weeks.

The trick, of course... is finding the right secrets. And the right guide, who will take you by the hand, answer all your questions... and show you exactly how you can get help, as fast as humanly possible. The right guide, who understands exactly what you are going through and has helped so many just like you already.

There's a lot of nonsense out there. Too many "experts" who really don't understand what you are going through. Doctors ready to put you on some new *experimental*, toxic drug. Snake oil salesmen ready to profit from your fear. Jokers who don't know what they are doing. Some may even be "good" doctors just "chasing symptoms". Many don't even understand what symptoms are associated with Fibromyalgia.

3. I have **MANY** Symptoms ... are they related to **MY** Fibromyalgia?

Fibromyalgia is typically pain in *all* four quadrants, throughout the neck, shoulders, chest, hips, knees, and elbows. This is a "clinical" description. Realistically, Fibromyalgia sufferers may have any of these sites or many others. Fibromyalgia symptoms can also present as disturbed sleep, irritable bowel syndrome, frequent headaches, fatigue, and memory problems.

That's why I've put together the "ultimate" program for Fibromyalgia sufferers. It's the exact program that so many *former* Fibromyalgia sufferers tell me they wish they knew about 10 years ago... So much unnecessary suffering... so much wasted time. This program is the secret most Fibromyalgia sufferers never discover.

Have you heard the saying that a proper diagnosis is 90% of the cure? This is very true. I have patients who have suffered for **MANY** years and who have been to 10, 20, 30, & even 38 other "doctors" with no relief, and helping them is... well, **EASY** with the proper diagnosis!

Many doctors completely **MIS-DIAGNOSE** Fibromyalgia. Well, I'm here to tell you that it is **EASY** to mis-diagnose something you don't fully understand. I can also assure you... this is **NOT** the case with us. We are the "experts" in diagnosing Fibromyalgia.

4. How is Fibromyalgia Diagnosed?

For the most part, routine laboratory testing reveals nothing. However, upon physical examination, patients will be sensitive to pressure in certain areas of the body, called tender points. To meet the diagnostic criteria (set forth for research purposes), patients must have widespread pain in all four quadrants of their body for a minimum duration of three months and at least 11 of the 18 specified tender points. The 18 sites used for diagnosis cluster around the neck, shoulder, chest, hip, knee, and elbow regions. Roughly 75% of Chronic Fatigue syndrome (CFS)-diagnosed patients will meet the very same Fibromyalgia criteria.

Yes, it's true. Different doctors are MUCH better for treating different conditions. For instance, if you are in an accident and are bleeding all over yourself, go to the hospital... don't come to my office. That's not what I do. That's not what I'm good at... If you go to your family doctor with a cold, flu, etc... expect excellent care. Fibromyalgia, as you well know by this point, is a completely different condition, that requires you to see a very well trained and specialized doctor.

5. What *Type* of Doctor is BEST to Diagnose & Treat Fibromyalgia?

Fibromyalgia is a disorder of the spinal joints, nerves, and muscles throughout the body. A Doctor with expertise with these areas of anatomy is best suited to properly diagnose and treat Fibromyalgia.

There are three types of practitioners *best* suited for the task of proper diagnosis and treatment of Fibromyalgia: A Chiropractor, a Physical Therapist, and a Nutritionist (*or Doctor with sufficient training in proper Nutrition*).

(Disclaimer: These practitioners individually are not the answer... You & I both know this.)

I see your wheels turning already. You are thinking to yourself, “I have tried Chiropractic”, or “I have been to a Physical Therapist”, or “I eat properly”...

Then you think, maybe there's MORE to this... Hmmmm maybe you are right! ☺

6. What is the BEST Treatment Solution for Fibromyalgia?

Actually, it's a **SECRET!** But I'll fill you in on it a “little”: It's a combination of several treatment approaches is actually best to fix the causes of Fibromyalgia. This system **MUST** fully address the actual causes!

So What Is The Secret?

Here's how this system works:

1. **THE NERVOUS SYSTEM:** Much of the latest research points to brain stem and spinal nerve injury and malfunction as a major cause if not **THE** cause of Fibromyalgia. Our “Complete Fibromyalgia Qualification Evaluation” includes nerve system evaluation and surface EMG. Surface EMG is a scientifically based, computerized test that helps determine abnormalities in the function of your nervous system. This test is simple and only takes 3-7 minutes. A complete color print out is given with a full written report. This test helps determine if you can be helped through our program and helps monitor your progress. There are **NO** needles used and the EMG is painless! I have enclosed a sample of this powerful technology with this report. Keep reading to

learn how you can have a surface EMG examination FREE along with a specialized Fibromyalgia Qualification Evaluation.

2. **THE MUSCULOSKELETAL SYSTEM**- Before you had Fibromyalgia your muscles functioned normally. Now your muscles always ache, hurt, are tender, and never seem to want to relax like they use to. Are you one of millions of Fibromyalgia sufferers who have tried physical therapy or massage with very little results? Sure you *may* have felt better very temporarily, then the ruthless pain returns (sound familiar?). “Why is that?”, you ask yourself. Well, your muscles are controlled by your nervous system. If your nervous system and muscles are never addressed PROPERLY, then the muscles will continue to ache, hurt, be tender, etc.
3. **NUTRITION**- There is one item commonly eaten everyday by Fibromyalgia patients (In fact, 100% of the time!), that is causing havoc with your body! Eliminating this one thing will get rid of 30-40% of your symptoms. Not only that, but are you giving your body the proper nutrition so you can feel better? If not, your body won't be able to heal itself. You see, there are certain foods that if eaten, will **WORSEN** your problem, and others that will **EASE** your problem. Wouldn't it be helpful to know this?

These are just a few of the things that we will evaluate when you come in for your **FREE** Surface EMG test and Fibromyalgia Qualification Evaluation, which I will tell you how you can get in just a moment...I PROMISE!

The Dissection Of A Soul...

You see, you can lose a leg... you can lose an arm... but there is **NOTHING** like an amputated spirit. That's what Fibromyalgia does to you. And the worst part is that you are not alone. Fibromyalgia is amputating the spirit of so many people.

Fibromyalgia is a crippling disease ruining the lives of 30 million people. 9 out of 10 are women. What we're here to do is to share this information that I think will change your life forever. Give you the power to move the world. Before it's too late.

This system can bring you from the peak of misery to a life of breathtaking enjoyment... it's done that for so many already.

There's a lot of nonsense out there. A lot of “experts” preying on your misery. Filling you with false hope. Or even worse, telling you there is **NO HOPE**. That's why I've written this report. This is **REAL** help from someone who understands.

We will take you by the hand and answer **ALL** your questions... giving you the best possible way to get better.

I don't care if you've been to 10, 20, 30 or even 100's of other doctors. Even if you've been to other chiropractors, physical therapists, or Neurologists. Or if you've tried everything under the sun and been disappointed countless times. None of that matters.

The ONLY thing that matters... is your desire to get on the bus. To start feeling better right away. To finally find the answers you've been looking for, that can change your life in the blink of an eye. This is a simple program, but you can NOT find it anywhere else and you can NOT figure it out all by yourself. You will NOT find this in a Fibromyalgia chat room. I honestly got lucky when I put this program together and found the "missing link" that gets such miraculous results for so many. There is absolutely no sane reason why you should go on suffering when the answer lies right at your finger tips.

Let me be your guide. I know what you're going through. When I started asking other doctors about Fibromyalgia they told me, "Aaaah, they're all just hypochondriacs... there's nothing wrong with them... what they need is a good shrink!" Well, I know better. And I promise, I won't let you down.

Please take the time to read through the numerous patient testimonials I have included with this report. You will see that many of our patients went to many other doctors and tried many different treatments before they came to me and were finally able to get relief.

I've filled my practice mostly from word-of-mouth... until now. The problem was, many sufferers like you would never get this information. So I decided to devote several MONTHS to write this report and since I did, I'm getting overwhelmed with responses. Unfortunately, I cannot accept everyone who responds to this report and I'm not sure how many more new patients I can accept. I must strictly limit the number of Fibromyalgia sufferers in this program due to the time required for each individual to get the best possible results. There is also a qualification process to make sure you are a candidate for the program and have the best chance for success.

So please... if you're at all interested in seeing if you qualify for this program, and seeing if this is finally the solution to your Fibromyalgia that you've been dreaming about... do it now. As I'll explain in a minute, you don't risk a single penny.
